PRODUCTION PLANT BASED IN
ITALY CERTIFIED GMP AND HACCP

WHY DELTA PHARMA?

INNOVATION

Innovative formulations and cutting-edge raw materials (nanoparticles, plant stem cells) and collaborations with university research centres

QUALITY

High-quality, high-dosage, high-titre raw materials of natural origin. All guaranteeing standardised production

SAFETY

Production plant in Italy certified GMP, HACCP, allergen, bacteria and heavy metal control. All products are Gluten free.

EFFICACY

Validation by clinical protocols and functional synergy for correct dosage of active ingredients.

LIVER SUPPLEMENTATION

WHAT YOU NEED TO KNOW ABOUT MERIVA®

Meriva® is a proprietary delivery form of curcumin making it more bioavailable. Curcumin alone has poor absorption in the body. Utilizing proprietary Phytosome technology, it improves bioavailability by combining a natural active ingredient with a phospholipid

- ✓ High titre of **Silymarin**, known for its hepatoprotective properties, to counteract development of liver inflammation and progression to steatosis, fibrosis and cirrhosis
- ✓ **Turmeric**, an excellent anti-inflammatory natural resource in an innovative, high-bioavailable formulation (**Meriva®**)
- ✓ **Rosemary**, to help glucidic metabolism, slow down liver degeneration and promote liver regeneration

IRON SUPPLEMENTATION

SunActive®
Iron Delivery System

Iron deficiency has a prevalence of around 20% worldwide.

- ✓ **FerroC** provides optimal oral iron supplementation:
- ✓ **SUNACTIVE Fe**: high bioavailability, high gastric tolerability and good organoleptic properties
- ✓ High content of **Vitamin C**, to further improve iron absorption

UROLOGICAL LINE

NOVEL FOOD
AUTHORIZATION

TEUPOL 10P

- ✓ **Teoside**, an innovative substance from plant cell cultures of *Ajuga reptans*, useful against inflammatory state and modulating 5Alpha Reductase
- ✓ Synergy between **PEA** known for its ALIA effect, **Resveratrol** and **phytosomal Curcuma** with high bioavailability and absorption, to fight prostatic inflammation
- ✓ **N-Acetylcysteine** produced by fermentation, known for its decongestant and antibacterial properties

UROLOGICAL LINE

- ✓ High content of **D-Mannose**, entirely excreted in the urinary tract where the high affinity for bacterial surface allows an excellent wash-out of bacteria, regardless of drug resistances
- ✓ High titre of **PacA** from Cranberry, to decrease bacteria vitality and adhesiveness
- ✓ **RIBODIET** nucleotides, a novel mixture to enhance bladder surface to heal during/after bacteria attacks

CIRCULATORY SYSTEM

A natural help to resume normal cholesterol levels for cardiovascular risk prevention

- ✓ **MONACOLIN K**, a natural statin without side-effects, to lower endogenous cholesterol biosynthesis together with artichoke leaves extract and polycosanols
- ✓ **Resveratrol** to reduce free radicals and LDL oxidation (atherosclerosis risk factor)
- ✓ **Folic acid** to maintain low levels of homocysteine (cardiovascular accidents risk factor)

POLYCOSANOL, 90% OCTACOSANOL

OMEGA-3

A balanced omega-3 (EPA and DHA) source to prevent cardiovascular events and normalize triglycerides levels

- ✓ Ultra concentrated Omega 3 (DHA and EPA) source for the well-being and functionality of the whole body: **Omegavie®**
- ✓ Obtained from tuna caught in the open sea, far away from industry, selected to give the highest available DHA content
- ✓ High purity, high stability and absence of heavy metals thanks to **Qualitysilver®** technology

VENOUS SYSTEM

A natural help in counteracting chronic venous disorder to relieve pain, inflammation and swelling

- ✓ Based on synergy of **Diosmin**, **Troxerutin** and **Escin**, Raxiven ameliorate vessel tone and weakness, fluid drainage and inflammation
- ✓ Protective action on the venous circulation
- ✓ Support for swollen and heavy legs

IMMUNE SYSTEM SUPPORT

Immune system strengthening and modulation:
a support in prevention and treatment of infectious and seasonal diseases

- ✓ **Beta-Glucan** has important immunomodulatory effects resulting in a better activity of the immune system against physical stress, pathogens and damaged cells together with **Echinacea and Zinc**
- ✓ **Rose hip** extract: a source of anti-bacterial and anti-viral substances
- ✓ **Grape seeds**: a source of Vitamin A and C, Resveratrol, Beta-carotene: anti-oxidant and anti-inflammatory properties to sustain immune response

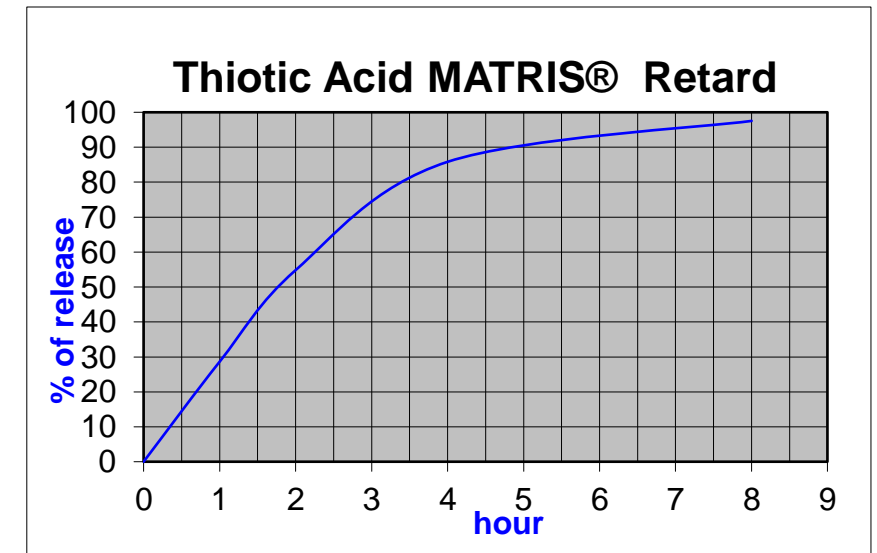

NEUTROPHIC LINE

- ✓ Alpha Lipoic Acid and B vitamins help against neuropathic pain
- ✓ Antiage
- ✓ High tolerability and bioavailability, patented controlled release (Matrix Retard®)

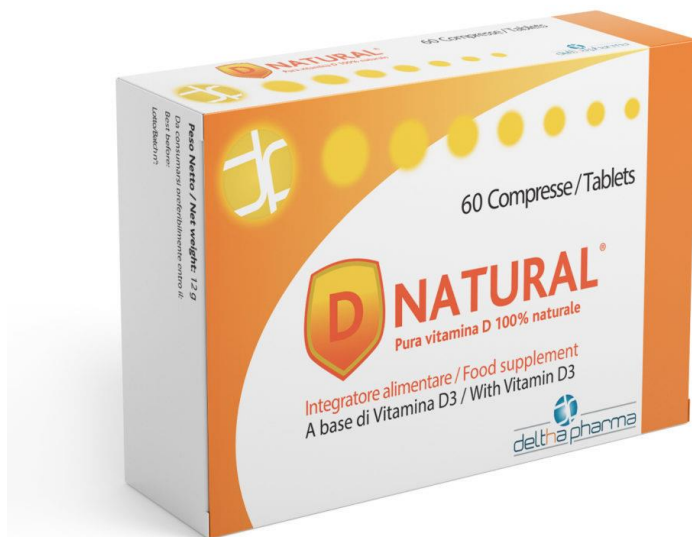

α-Lipoic Acid: critical aspects overview

Aspect	Solution	M.A.T.R.I.S.® Technology
Bitter taste	Taste masking	✓
Short half life	Controlled release	✓

VITAMIN D3

VITAMIN D3 VEGAN FROM LICHENS

- ✓ Useful for proper intestinal absorption and maintenance of serum levels of calcium, magnesium and phosphorus contributes to the proper development and balance of bones, teeth and cartilage and for the contractility of muscle cells
- ✓ Useful for cell growth, influences production of glutathione with antioxidant effect, improves inflammation, interacts with the immune system and in particular with monocytes and activated T and B lymphocytes
- ✓ Stimulates the production of endorphins, which are often lacking in states of depression.

SLEEP-WAKE CYCLE

A formulation born to facilitate the normal sleep-wake cycle and reduce anxiety and stress levels

- ✓ **Melatonin** has many effects:
- ✓ Promotes adaptation to the environment by regulating the circadian rhythm and metabolism through interaction with TSH
- ✓ Antioxidant and protective on DNA and glutathione, against UV exposure damage
- ✓ Enhance the immune system **Valeriana Officinalis** and **Passiflora Incarnata** acting on GABA-A, have calming, anxiolytic, anticonvulsant and spasmolytic properties

LACTIC FERMENTS

A consortium of high-dose of probiotics (9 selected strains and two distinct formulations: 25 and 50 billion of live cells)

PATENTED BY

UNIVERSITÀ
CATTOLICA
del Sacro Cuore

- ✓ A unique and innovative formulation for the maintenance of the intestinal microbiota balance and a valid help in case of dysbiosis
- ✓ Packaged in transparent, vegetable and gastro-resistant capsules
